Hi Debra,

Unfortunately I'm not a technical person and will therefore forward your email to both Donna Inman as well as Steve Way, asking them to get back with you.

Sincerely, Libby Faulk

Subject Re: Keller Oil Spill Monthly Status Update

Dear Ms. Faulk,

Thank you for the update.

I have been doing some research regarding gas eating bacteria. Could you remind me why we did not use that approach. And, I have been told that I might still be able to use a variation of that on my property to reduce the stress on my plants and trees that is applied topically. Do you have any information regarding this process and an opinion of whether that might reduce the remaining gasoline and it's residue?

Thank you.

Debra Sykes
